This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

In investigating concerns brought up regarding the authenticity of the article, the editors reached out to the corresponding author for an explanation.

The corresponding author's response was unsatisfactory. Furthermore, the editors discovered suspicious changes in authorship between the original submission and the revised version of this paper.

In summary, seven (7) authors were removed from the paper during Revision. The authors Dong Jiang, Yi-Long Wan, Yun-Yun Xu, Bo Peng were all added to the revised paper without explanation and without the exceptional approval by the handling Editor, which is contrary to the journal policy on changes to authorship.

Overall the editors feel that the findings of the manuscript cannot be relied upon and that the article needs to be retracted.
